## Welcome to Wipeout

Wipeout Ltd is a cleaning and hygiene supplier founded in 1992 by father (Richard) and son (Tony) Field who between them held a combined total of 65 year's experience in the cleaning and hygiene supplies industry. At the time they felt there was a need for a quality cleaning and hygiene supplier, that offered practical advice on the latest and most cost effective ways to implement reliable and up to date cleaning methods in a commercial environment. Currently we are moving into our third generation with the appointment of Rachel Martin to the board. Rachel brings a vast amount of administrative experience to the company, some 16 years to be precise.

Since its foundation Wipeout Ltd has gone from strength to strength, firmly establishing itself as a market leader in Floorcare solutions for Marble, Wood, Parquet Floors etc. to the Irish market. Our Floorcare range was developed over time with our partners Otto Oehme in Germany. By listening to our customers' needs we found solutions that are both certified and accredited to the latest Industry standards. We take a professional approach by offering a free on site survey and if necessary can give an onsite demonstration, whether you need a Non-Slip or Anti-Static finish we have the answers.

Presently Wipeout has become successful in securing tenders with the HSE and a number of other state bodies. We are also a licensed distributor of Bay West Washrooms Systems - this range offers high quality towel and toilet roll dispensing solutions for high usage facilities. Bay West products offer financial and economical savings of up to 30% thanks to their patented dispensing system.

Wipeout's Mission has always been to protect the environment. We all have a duty but more importantly the means and knowledge to make conscious choices for environmental protection. To this end Wipeout favours products manufactured in compliance with EU laws by certified Manufacturing companies.

Wipeout has always paid attention to our customers needs and together we can look forward to a bright future. This has led us to the development of Irelands most sophisticated Integrated e-commerce online ordering system in the cleaning supplies industry. This is another first where the customer is able to add multiple delivery address's, get copy invoices, statements, payment record, order history etc. Besides guaranteeing a next day delivery service, we also offer a complete nationwide service and are continually adding to our approved nationwide distributor network.

## Product Certifications, Lists and Standards Overview

### VAH List of disinfectants

The VAH List of Disinfectants (Association for Applied Hygiene) is an approved reference for effective product for prophylactic disinfection. That quality assurance is relevant not only for the medical sector but also for public institutions and, in case of illness, even for private household. It is proven that the bigger part of infections have their source in private households. For the first time the VAH-list contains information on the effectiveness against viruses.

### EU Ecolabel for multipurpose and sanitary cleaners

EU Ecolabel is a label acknowledged by all member states of the EU as well as by Norway, Liechtenstein and Iceland. The voluntary symbol which was introduced in 1992 (Council Regulation (EEC) No 880/92) has gradually become a reference for consumers who want to contribute to pollution reduction by buying more environmentally friendly products and services. The EU Ecolabel helps consumers to identify products that have a reduced environmental impact throughout their life cycle and therefore commit to environmental sustainability.

### DVG List of disinfectants

The "Deutsche Veterinärmedizinische Gesellschaft" (German Veterinary Medical Society – DVG e.V.) is the scientific society of veterinary medicine. The committee "disinfection in veterinary medicine" of the DVG releases lists of disinfectants which have been tested according to the guidelines of the DVG and have been found to be effective. Found in 1951, the DVG is the oldest organization of veterinary medicine in Germany. Veterinarians from universities, industry, public authorities, ministries, research groups under the auspices of the DVG.

### PLASTIC SECOND LIFE "PSV"

The brand "Plastic Second Life" is a system of environmental product certification dedicated to materials and articles made from the use of waste plastics. It is the first Italian and European brand dedicated to recycled plastic, introduces the concept of "quality" in plastics recycling and the concept of "traceability" of recycled materials. This mark comes from the need to make more visible and more easily identifiable goods in recycled plastics that are intended for public administrations, as well as the GDO (Italian: Large Retail Organization). The activities to obtain the mark PSV are carried out by IPPR (the Italian Institute for the Promotion of Recycled Plastics), a leader in Italy in the certification of product for the plastics industry.

### List of tested cleaning agents for ceramic coverings in indoor swimming pools (LIST RK) and List of tested cleaning agents for tank bodies and building elements made of stainless steel in swimming pools (LIST RE)

The publications of the "Deutsche Gesellschaft für das Badewesen e. V." (DGfDB) have an excellent reputation among experts and, from a technical point of view, can be put on pair with the DIN standards. That is why they are an indispensable prerequisite for the safe construction and operation of public bath. Lists of tested cleaning agents, suitable for public baths, are published in regular intervals.

### CE MARK

#### 89/686/EEC THE PERSONAL PROTECTIVE EQUIPMENT (PPE)

**DIRECTIVE** was adopted in 1989 by European Communities

Regulations for all Personal protective Equipment. From June 1995 all PPE placed on marked in EU Member States must comply with directive and carry the CE Marking. Personal Protective Equipment covered by this directive is divided into 3 categories: Category I – "simple", Category II – "intermediate", Category III – "complex". Category 0 is sometimes used as a reference to P.P.E. not covered by this Directive.

### DIN EN 1040

Quantitative suspension test for the evaluation of basic bacterial activity of chemical disinfectants and antiseptics.

### DIN 18032

DIN 18032 is a standard used in the constructions of sports halls whether for school sports, competitive sports, clubs sports, mass sports, amateur sports and sport for people with special needs. The standard also formulates requirements for cleaning, maintenance and slip resistance.

**93/42/EEC MEDICAL DEVICE DIRECTIVE** is intended to harmonise the laws relating to medical devices within the European Union. The MD Directive is a 'New Approach' Directive and consequently in order for a manufacturer to legally place a medical device on the European market the requirements of the MD Directive have to be met. Products conforming with the MD Directive must have a CE mark applied. The Directive was most recently reviewed and amended by the 2007/47/EC.

## Colour Codes

Below is a guide as to the definition of what colour of cloth or mop to be used and where thus avoiding the transmission of dirt and bacteria from one cleaned surface to the other, greatly reducing the risk of cross-contamination.

<p><b>VERY HIGH RISK</b></p>  <p>For cleaning of bidets, WC.</p>	<p><b>HIGH RISK</b></p>  <p>For cleaning of sinks, tiles, mirrors... in the bathroom.</p>	<p><b>MEDIUM RISK</b></p>  <p>For cleaning in kitchen, canteens and bars.</p>	<p><b>LOW RISK</b></p>  <p>For cleaning of all surfaces, such as tables, desks, wardrobes, glasses and other surfaces.</p>
---	--	---	---

Below is the appropriate Guide to European Colour Coded Waste Segregation. The containers are color-coded for the appropriate selection.

The following categories are common:

<p><b>PAPER WASTE</b></p> 	<p><b>METAL WASTE</b></p> 	<p><b>PLASTIC WASTE</b></p> 	<p><b>GLASS WASTE</b></p> 	<p><b>ORGANIC WASTE</b></p> 	<p><b>NON-RECYCLABLE WASTE</b></p>

# Floor Care Chemicals

Wipeout has always enjoyed a good working relationship with its chemical suppliers to that end over the last 20 years we have continually updated and improved our cleaning chemicals. This is an area that in recent years is becoming extremely regulated and quite rightly so.

When Chemical products are developed and used correctly they will be both economical and safe to use. Wipeout has recently developed an excellent range of Floor care products offering solutions for Marble, Parquet Laminate flooring etc. Wipeout understand the work involved in stripping and polishing floor surfaces and for that reason we are the first in Ireland to bring the customer a unique 12 month guarantee with our latest Floor Polish.

The majority of our Floor Polish's are not only Anti-Slip and Anti-Static. In many cases they are certified and accredited for use on the Surface and Industry to be where they are to be applied.

\* We would advise against using a wipe care on high-gloss surfaces

### GENERAL INFORMATION

Information on floor care product overviews and surface matrix.

The product overviews serve for orientation only. Please always pay close attention to the detailed cleaning and care instructions of the flooring manufacturer. Due to the variety of applications possibilities and processing conditions these instruction are non-binding and do not establish a contractual legal relationship and do not justify any subsidiary obligations resulting from the purchase contract. We do not release consumers from examining our products for suitability for their intended use on their responsibility.

Important note: When cleaning cork and parquet floors the use of water should be minimized. We therefore recommend only using cleaning cloths which are as dry as possible. Please pay attention to the care instructions of the producer, otherwise exclusion of liability might happen.

### Reiniger 247

It is a cleaner without ammonium chloride. Suitable for powerful and hygienic cleaning of all types of washable and alkali-resistant materials such as glass, ceramics, PVC, rubber, etc. – easily removes heavily soiled as well as oil and grease.

**Code: W247 5ltr**

**Dosage:** 100-200ml/10ltr  
**pH Value:** 10

### Reiniger 228 Ecolabel

Eco friendly mild alkaline, low-foaming all-purpose cleaner without ammonium chloride. Suitable for powerful and hygienic cleaning of all types of washable and alkali-resistant materials such as glass, ceramics, PVC, rubber, etc. – easy heavily soiled soiling as well as oil and grease.

**Code: W2281 1ltr**  
**W228 5ltr**

**Dosage:** 20-40ml / 10ltr  
**pH Value:** 9

### SUPER G7 (MULTIPURPOSE CLEANER)

Eco Friendly Super G7 Multi-Purpose Cleaner is phosphate free, bio-degradable and super concentrated cleaner with a light clean fresh fragrance. This product is safe to use on tables, chairs, beds/trolleys, fixtures and fittings, telephones, doors, walls, toilets, sinks, bins, all hard surfaces and machinery.

**Dosage:** To be used through Super G Dispenser only  
**pH Value:** 7

**Floor dispenser**  
**Code: GDF**

**Bottle dispenser**  
**Code: GDB**

**Sink dispenser**  
**Code: GDS**

## SAFETY FIRST

**ALWAYS** read, understand and adhere to label instructions and dilution rates, before using any chemicals.

### NEVER MIX CHEMICALS

Take care when handling and diluting products. Always test product in small discrete area before full application.

**ALWAYS** use protective safety wear and sensible footwear.

**ALWAYS** check machinery for loose parts, cable, plug before using.

**ALWAYS** replace cap on container and never leave any chemicals unattended especially where children can reach them.

When a product is to be diluted for spray application.

**ENSURE** the bottle is correctly labelled.

## ALKOCLEAN 143

Concentrated Neutral universal cleaner based on alcohol and low foaming tensides for cleaning and maintaining all types of hard surfaces such as tiles, ceramics, coated floorings, plastic, glass, natural and artificial stone as well as varnished and enamelled materials. Alkoclean will give you a fast dry streak free finish to your floor whilst leaving an exotic fresh fragranced.

**Code:** W1431 1ltr  
W143 5ltr

**Dosage:** 50-200ml / 10ltr  
**pH Value:** 6

## PURITO 219

Highly concentrated, ultra-moistening detergent developed specifically for all types of water-repellent surfaces made of polyurethane, PU-declared floorings, micro-porous surfaces – Ceramics, Porcelain and stoneware. Highly efficiency, good dirt binding qualities allowing for a streak free finish make this perfect product for one wipe cleaning method.

**Code:** W2191 1ltr  
W219 5ltr

**Dosage:** 20ml / 10ltr  
**pH Value:** 9

## AUTODUR 214 (Anti-static)

This new generation of products for Wipe/Spray maintenance designed for powerful cleaning and optimum Gloss Finish film is water-resistant and does allow build up even when using daily.

Is excellent Anti-slip, Antistatic, Low-foaming characteristics make it ideal for high traffic areas (Schools, Shopping Centres, etc).

**Code:** W214 10ltr

**Dosage:** 50-200ml / 10ltr  
**pH Value:** 9

## COMBIDUR 210 (Anti-static)

**DIN**

Complies with DIN 18032 for sport floors, tested by OTTO GRAF Institute of the University of Stuttgart. New generation of wipe care for powerful cleaning and optimal silky gloss.

Modified tensides and maintenance compounds clean and care. The dried film is water-resistant and does not build up even when used daily. Anti-slip, Antistatic, Polishable.

**Code:** W210 5ltr

**Dosage:** 50-200ml / 10ltr  
**pH Value:** 10

## SERE 406 (Anti-static)

This Deep Cleaning agent with Low Foaming Tensides is ideal for use though a Scrubber Drier based on natural oleic acids and added fragrances. The Anti-slip, High Gloss Finish also leaves an Anti-Soil Resistant protective layer that is gentle to your Floor Surface.

**Code:** W406 5ltr

**Dosage:** 50-100ml / 10ltr  
**pH Value:** 10

## WIWA 407

Buffable concentrate based on non-solvent polymers and cleaning compounds designed for daily use on all types of floors. WIWA build up an extremely Hard Wearing, Anti-Slip and Dirt Repellent layer with optimum Self Gloss Finish whilst preventing hell and scuff marks.

**Code:** W405 5ltr  
W40510 10ltr

**Dosage:** 50-100ml / 10ltr  
**pH Value:** 8

## SUPER G4

Eco Friendly Super G4 Floor Cleaner is phosphate free, bio-degradable and super concentrated heavy duty floor cleaner. This product has a light fragrance and is a non-corrosive and safe to use on all industrial floor surfaces.

**Code: G4 – Floor Cleaner**  
**GDF – Super G Dispenser (Floor)**

**Dosage:** To be used through Super G Dispenser only  
**pH Value:** 11.5

## ANTISTATIKUM 256 RTU

This Ready-To-Use antistatic Floor Maintainer is designed for the long term elimination of electrostatic charges to plastic, textiles, etc

**Code: W2561 1ltr**  
**W256 5ltr**

**Dosage:** pure  
**pH Value:** -

<p><b>MAINTENANCE</b></p> <p>ITEMS REQUIRED:</p> <ul style="list-style-type: none"> <li>• SAFETY WEAR &amp; SIGNS.</li> <li>• SWEEPER MOP OR BRUSH.</li> <li>• HIGH SPEED MACHINE.</li> <li>• CLEANING/ BURNISHING PAD.</li> <li>• BUCKET &amp; CLEAN MOP.</li> <li>• SPRAY BOTTLE.</li> <li>• MEASURE.</li> </ul>	<p>Put on safety wear. Place safety signs. Sweep floor.</p> <p>1 If heavily soiled, mop with maintainer or neutral detergent. Rinse and allow to dry.</p>	<p>Dilute maintainer in spray bottle as per label instructions. Adjust handle of the high speed burnishing machine to safe, comfortable working height. Spray fine mist onto floor. Burnish with machine and appropriate pad to remove scuff marks and enhance finish. Mop sweep floor if machine does not have a vacuum attachment.</p>	<p><b>OR</b> Dilute maintainer as per label instructions into mop bucket (water first). --	---	--	--

<p><b>POLISH APPLICATION</b></p> <p>ITEMS REQUIRED:</p> <ul style="list-style-type: none"> <li>• SAFETY WEAR &amp; SIGNS.</li> <li>• CLEAN MOP OR POLISH APPLICATOR</li> <li>• MOP BUCKET OR TRAY</li> </ul>	<p>Put on safety wear. Place safety signs. Ensure floor is clean and dry.</p> <p>1 Pour polish into bucket or tray. Use plastic liner to protect bucket.</p>	<p>Place mop/applicator into polish. Lightly squeeze surplus from mop/applicator.</p> <p>1 Spread polish thinly and evenly in NORTH to SOUTH direction. Leave 6" gap at floor edge. (this will avoid build up) Leave to dry thoroughly, approximately 30 minutes.</p>	<p>Apply further coat of polish thinly and evenly at right angles to first, i.e. WEST to EAST over total floor area. Leave to dry thoroughly, approximately 30 minutes. The floor may require more than the normal 2 coats of polish, depending on age, porosity of floor and the system being worked. Never put unused polish back in container.</p>
--	--	---	---

## LINO STRIPPER 263

Intensive special deep cleaner for all types of alkali-sensitive floorings such as linoleum and rubber. Quickly and thoroughly removes films of polymere, wax, oils and grease residues. No extensive rinsing necessary, after wiping with a damp cloth allow to dry then apply polish.

**Code: W2631 1ltr**  
**W236 5ltr**

**Dosage: 1-3ltr / 10 ltr**  
**pH Value: 9**

## UNISTRIP 239

Intensive floor stripper for all types water resistant floorings (linoleum and rubber). Quickly removes films of polymere, wax and oil and grease residues. No time-consuming rinsing necessary, wipe with damp cloth, let dry and coat.

**Code: W2391 1ltr**  
**W239 5ltr**

**Dosage: 1-3ltr / 10 ltr**  
**pH Value: 10**

## STRIPPER FORTE PLUS 449

Low-foam and slightly scented remover of polymer, wax and dirt residues for all types of alkali and solvent proof surfaces. Quickly and effortlessly removes old layers of dispersion and wax polishes. Due to its excellent grease and oil cleaning power this product is recommended for use in kitchens and bakeries to stop built up and encrustations occurring.

**Code: W4491 1ltr**  
**W449 5ltr**

**Dosage: 0.5 – 1ltr / 10ltr**  
**pH Value: 14**

## WATERLESS STRIPPER 262

This mildly alkaline Gel detergent is suitable for deep cleaning all types of water-sensitive floors, especially wood, laminate and parquet. The Gel avoids the unnecessary wetting of timber floors without damaging sensitive joints and edges.

**Code: W262G1 1ltr**  
**W262G 5ltr**

**Dosage: Pure**  
**pH Value: 8**

## WAX REMOVER 501

Concentrated solvent based detergent for the removal of oil, wax, polish, heel marks and bitumen from solvent-resistant surfaces cork, wood, parquet, etc. This deep cleaning and quick drying product is great for bringing Terracotta up as new.

**Code: W5011 1ltr**  
**W501 5ltr**

**Dosage: Pure**  
**pH Value: -**

### POLISH STRIPPING

ITEMS REQUIRED:

- SAFETY WEAR & SIGNS.
- 2 MOPS & 2 MOP BUCKETS.
- SWEEPER MOP OR BRUSH.
- SCRUBBING MACHINE & STRIPPING PAD.
- WET PICK UP (if available).
- EDGING TOOL
- CLOTH
- NEUTRALISER
- MEASURE.

Put on safety wear.  
Place safety signs.  
Put water in bucket.  
1 Dispense correct measure of polish stripper.  
2 Add polish stripper slowly to water in bucket to avoid splashing.

Ensure adequate ventilation.  
Sweep floor.  
1 Mop solution onto floor.  
2 Leave solution on floor for 5 minutes, allowing it to work.

Adjust machine handle to safe comfortable working height.  
1 Scrub floor until all polish is removed.  
Use edging tool for edges and corners.  
2 Remove slurry with wet pick up or mop.

1 Neutralise and rinse.  
2 Rinse well with cold clean water.  
3 Remove with wet pick-up or mop. Wipe skirting board with damp cloth to remove splashes. Check floor is neutral ph. Repeat above if necessary.

### AUTOMATIC 452

Self Gloss Emulsion based Acrylic and Polyethylene waxes for all types of water-resistant flooring, suitable for use by amateurs and professionals. When maintained correctly this product has a 6-12 months life. Not for use on unsealed Parquet, Cork and Timber floors. Automatic Floor Polish offers the benefits of easy maintenance, wipe clean using Microfiber Mops or High Speed Spray Buffing.

**Code:** W4521 1ltr  
W452 5ltr

**Dosage:** Pure  
**pH Value:** 8

### SEALER N 456

Primary Dispersant Sealer based on Heavy Polymers for Sealing highly porous floors, when used correctly this product offers excellent Waterproof Characteristics especially for Linoleum, Rubber and Asphalt with lining as it Polymers offer High filling and Water resistant qualities.

**Code:** W4561 1ltr  
W456 5ltr

**Dosage:** Pure  
**pH Value:** 8

### STRAPA 457

This High Quality, Hard Wearing, Non-Slip, Self-Glossing Water Resistant Polymer dispersion for coating all types of water-resistant floorings such as Linoleum, PVC, Polyolefin, etc. as well as Sealed Parquet, Wooden and Laminate floorings. Its excellent Anti-Slip properties along with the easy removal of Heel and Scuff marks make it Ideal for use in High Traffic areas, due to its Long Life 12 Months when maintained correctly. This High Quality Floor Polish can also be maintained using High Speed Burnishers whilst not affecting the products Long Life Integrity.

**Code:** W4571 1ltr  
W457 5ltr

**Dosage:** Pure  
**pH Value:** 8

### POLYTHERM 097

This Incredible product really is the Daddy in the range. It has a Guaranteed Minimum 12 Month life when maintained correctly thanks to the use of our New Polyurethane Acrylics which give exceptional wear resistance due to its viciously elastic film this offers good Heel, Tyre and Scuff mark resistance. It is suitable for all Water Resistant floorings leaving an exceptional Wetlook, Gloss Finish whilst at the same time offering excellent Anti-Slip Properties. Unlike conventional Floor Polish Polytherm can also be maintained using a High Speed Burnisher whilst not damaging or affecting the life of the product.

**Code:** W0991 1ltr  
W099 5ltr

**Dosage:** Pure  
**pH Value:** 8

### LAPIDUR 465

This Polish was designed to give a High Gloss Finish to very Porous Floors such as Marble, Terracotta, Natural and Artificial Stone Floors indoors as well as outdoors. Thanks to its Deep Filling capabilities it closes pores easily leaving a Hard Wearing, Water Resistant, Protective Seal that creates an Anti-Slip Barrier that is capable of being Polished with a High Speed Gas Burnisher.

**Code:** W4651 1ltr  
W465 5ltr  
W900 10ltr

**Dosage:** Pure  
**pH Value:** 8

### CRÈME LORITO® 462

Crème Lorito® is the original universal cleaning and maintenance product first manufactured in 1923. Designed for all types of hard surfaces Sealed Wood, Water-resistant floorings, Natural and Artificial Stone, Marble, Rubber, Plastic, etc. It cleans, cares and polishes in one application.

**Code:** W4621 0.9ltr  
W462 4.5ltr

**Dosage:** Pure  
**pH Value:** -

### Stain Remover W245

This single application, easy and gentle to use water-soluble based Stain Remover is suitable for use on most Carpets, Fabric and Textiles that are not Solvent Resistant. This product is an effective for the removal of Stains and marks caused by Alcohol, Coke, Lemonade, Fruit Juice, Coffee, Tea, Milk, Eggs, Fruits, Urine, etc

**Code: W245      0.5ltr**

**Dosage:** Pure  
**pH Value:** 8

### Spot Remover L246

This Instant Drying single application easy to use Solvent based Stain and Spot remover is suitable for use on most Solvent resistant Carpets, Fabric and Textiles. This product is mainly used by professionals for the removal of more stubborn stains such as Grease, Oil, Wax, Paint, Tar and other heavy to remove stains

**Code: W246      0.5ltr**

**Dosage:** Pure  
**pH Value:** -

### KKF 260 Chewing Gum Remover

This easy to use Spray cleaner works by freezing Chewing Gum or Modelling Glue to the surface to be cleaned this turns the Glue or Gum hard making it Brittle and easy to remove from most surfaces.

**Code: W2601      300ml**  
**W260              case of 12 x300ml**

**Dosage:** Pure  
**pH Value:**

### TESCHA 255

Concentrated carpet foam cleaner for deep and gentle cleaning of textile floorings and upholsteries with colour freshener and anti-soil effect.

**Code: W2551      1ltr**  
**W255              5ltr**

**Dosage:** 100-200ml / 10ltr  
**pH Value:** 8

### RESPEX 265

Low Foaming Carpet Shampoo suitable for use through Carpet Extraction Machines and Manual Cleaning that contains 4 vital ingredients.

- Optical Brightener: Essential for colour enhancement of all Carpets, Upholstery, Rugs and Textiles brings life to even the most jaded fabric.

# Sanitary Cleaners

The Modern washroom really has to be a green environment. To that end we offer the first ever Ecolabel accredited system in Ireland and the UK. The demands in a washroom are difficult, dispensers need to be extremely durable and be able to cope with very large volumes of clients.

Our range of dispensers are not only attractive, they offer practical solutions in high usage areas such as Shopping Centres, Restaurants, Stadiums etc. More importantly we will save you our customer not just money through cost but guarantee no embarrassing moments by running out of product.

These savings can be up to 30% in most cases, by reducing maintenance and eliminating waste completely when selecting the right system.

# CELTIC Fresh

*An entirely new range of superior Irish products which offer great performance at the right price!*

# Kitchen Hygiene & Disinfection

Good food hygiene is not only the law it is good business practice. By implementing the correct hygiene systems in Food areas you will protect your business`s reputation and minimize legal ramifications. All too often good hygiene practice is ignored through ignorance. Remember Good hygiene standards improve operational efficiency and don't put our customers at risk of Food poisoning.

By implementing good food hygiene practices we reduce the risk of cross contamination where bacteria is spread between food, surfaces or equipment. Wipeout can help you by recommending the correct cleaning methods. Supplying only fully certified and accredited cleaning products, often independently tested to HACCP standard, given our customer peace of mind.

We believe through onsite training in the use of our controlled systems (SuperG) it will not only impact in cost savings, but reduce the risk of operator errors (Dilution, Safety). This system is colour coded and numerically coded from the pouch, spray bottle and dispenser. Thus guaranteeing disinfectant efficiency and avoiding Microbial contamination of all equipment and cleaning surfaces.

# Cleaning Equipment

## FLAT MOPS

### YARNS

#### ACRYLIC

A highly electrostatic charged fiber that collects and attracts dust particles, thus increasing the performance of the mop head.

#### COTTON

100% cotton, mixed cotton or first rate (regenerated) cotton. Natural highly absorbing fiber that keeps dirt, releasing it only when the mop head is washed.

#### MICROFIBER

It deeply penetrates the grooves and pores of floor, absorbing the removed dirt and retaining it till mop washing. Perfect for: inside floors (especially the porous ones) with a medium-high degree of dirt.

#### POLYESTER – COTTON

The combination of cotton, a natural fiber with a high absorbing level, and polyester, a synthetic fiber very strong and resistant to washing, allows the mop head to run easier and faster on the floor.

**Perfect for:** inside floors with a medium degree of dirt.

#### MICROFIBER – COTTON – POLYESTER

The combination of these three types of yarn gives excellent cleaning results: a better cleaning, a high absorbing degree and a faster and easier running of the mop head on the floor.

**Perfect for:** inside floors with a medium degree of dirt.

#### MICRO – ACTIVA

Microfiber penetrates deep into the grooves and pores floors, absorbing the removed dirt and retaining it till mop washing.

**Perfect for:** inside floors (especially the porous ones) with a medium-low degree of dirt.

### YARN MANUFACTURED PROCESS

#### LOOPED YARN

Avoids fringing and lint.

#### CUT YARN

Avoids getting trapped into possible obstacles in the cleaning area.

#### LOOPED YARN INSIDE AND CUT YARN INSIDE

## MOPS

### YARNS

#### COTTON

100% cotton, mixed cotton or first rate (regenerated) cotton. Natural highly absorbing fibre that keeps dirt, releasing it only when the mop head is washed.

#### DREAM MOP

Microfiber mop. It penetrates the micro pores of the floor deeply cleaning it and removing grease. High absorbing capacity. Fitting all kinds of floor.

#### SYNTHETIC MOP

It keeps dirt and, at the same time, it looks clean. Very resistant to strong chemical products, like bleach. Advised for food and chemical industry.

### YARN MANUFACTURED PROCESS

#### LOOPED YARN

Avoids fringing and guarantees a longer life of the mop.

#### TWISTED YARN

Avoids fringing and guarantees a longer life of the mop.

#### BAND

It guarantees a uniform distribution of the mop strings on the floor and avoids getting trapped into possible obstacles in the cleaning area.

- 7930 ● 7940CGB ● 7930Y

## Trolleys

The first trolleys Wipeout sold were a far cry from today's modern cleaning trolleys. Wipeouts trolleys now are modular and can be designed around each customer's specific requirements. They are hygienic often anti-microbial treated, lockable, metal free with silent closing lids for use in healthcare. The modern trolley has 3 basic functions.

**Waste Collection:** With the option of 1, 2 or 3 compartments for waste collection recycling has never been easier. Lids come with the option of silent closing and even lockable if required ideal in a medical environment.

**Storage:** The choices are endless; trolleys can be fitted internally with shelves, drawers 20 or 40ltr even lockable. Outside can be fitted with or without doors that are also lockable.

**Mopping:** Whether you want use a flat mop, kentucky or granny mop today's trolley can be equipped according to the preference of your industry.

Each of these functions vary from customer to customer and industry to industry making the modern Cleaning Trolley very much a bespoke product. As they are a very much a modular system we not only stock a huge amount of spare parts we can basically design a Cleaning Trolley for any customer. All our trolleys manufactured by Filmop made from certified PSV shatterproof plastic.

*Ordered Today - Delivered Tomorrow*

### TROLLEYS

 COLOUR: white  
 TOWELS PER ROLL: 339  
 ROLLS PER CASE: 12

**CODE: 3712**

## BIO BALL

A biological block that contains billions of friendly bacteria, which include several different enzymes. It is activated when small amount of liquid is passed over it, this can either be water or urine. The BioBall is activated on a small amount of liquid, this allows the user to reduce urinal flushing to just 1 - 4 janitorial flushes once a day to clear the drains of any debris build up. The water and sewage savings is significant to the user as well as bringing down their CO2 emissions.

BioBall has integrated innovative design with the science of enzymes. The Bio Ball provides a cost effective solution to ongoing problems of urinal maintenance while dramatically reducing water wastage and enhance the washroom environment.

The BioBall cage encases the powerful biological enzyme block which can be elevated above the flushing waterline with or without the use of an integrated pedestal 'lollipop stick. The BioBall cage system ensures a sludge free solution for urinal maintenance. Bio Ball will not dye the urinal or end up being a sludgy mess at the bottom of the drains after a few weeks use.

CODE: BO

## AIR FRESHENERS

### URI-MAT (Urinal Deodorizer)

Revolutionary Translucent Flexible Design allows full view of urinal drain to ensure optimal drain flow while trapping debris. The upper part of the disc is composed of several "peaks" that reduces splash back while optimizing fragrance and bacteria release. Environmentally Friendly. No ozone depleting ingredients. Gradually released up to 60 days

- Code:**
- UWM – Mint ZZesty
  - UWA – Mango SqueeZZe
