ALPHASPLIT 0706800 - plastic trolley

Having always been a leading company concerning the recycling of raw materials, Wipeout has designed the **AlphaSplit**, range of trolleys, an innovating system for the **separate waste collection**. In just one trolley it is possible to split and customize up to **8 different compartments for waste collection**, without giving up the **advantages of a compact and handy workstation** fitting even the smallest spaces.

Any Alpha trolley in our range with bagholder 150 L can be transformed into the AlphaSplit version.

APPLICATIONS

Trolley used for the waste collection and for the wet mopping and/or disinfection in hospitals, rest homes, clinics, medical practices, with pre-soaking mopping system with hermetic Top-Down® buckets.

FEATURES

- Made of high quality polypropylene copolymer: shock-proof, heavy duty and low-temperature resistant, light, non-toxic, completely recyclable
- Strong, tough, ergonomic, modular, easy to assemble and clean
- The vertical frame guarantees the maximum hygiene, separating the waste collection section from the rest of the trolley
- The bagholder is completely closed for a better hygiene and the door helps the operator while emptying the bag from the front
- Bagholder 2x75 L for the collection of dirty mops and cloths equipped with ergonomic push-bar, handle supports and hook. It is available in different versions: 150 L, 2x75 L, 1x50 L+1x100 L, 3x50 L and it is equipped with 2 shock absorbing pistons for a silent and soft closure of the cover (Hush System).
- The bagholder can be equipped by a kit pedal which allows the opening of the cover by foot, without using the operator's hands
- Thanks to the bag holder and the lower removable drawer, the trolley has a closed storage compartment with a minimal space
- The fixed side walls and the side doors are completely smooth and upon request, they can be customized with drawings, pictures or logo
- Buckets 4 L in different colours to separate the different chemical solutions, tools and cleaning equipment in use
- Top-Down® bucket 20 L with hermetic cover and handle to prepare the mop heads with the chemical solution beforehand and transport them into the working place
- The trolley can be equipped with hooks, baskets with dividers, carry baskets, handle holders and many other accessories: we suggest you to check our technical catalogue in the "components and accessories" section of our Alpha line of trolleys in order to know the complete range of the available accessories.

MATERIAL

Polypropylene copolymer
